DETAILED ACTION

Response to Amendment

1. The amendment filed on November 15, 2002 is sufficient to overcome the cited references for Claims 1-91.

Election/Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-91, drawn to a method for providing promotions to a first person based on an inquiry received from a second person, classified in class 705, subclass 14.
 - II. Claims 92-121, drawn to a method for selling used products, i.e. a consignment system, classified in class 705, subclass 26.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions Group I can provide a promotion to the first person without selling used products, and Group II can sell used products without providing promotions to the first person.

Art Unit: 3622

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. During a telephone conversation with Magdalena M. Fincham on January 23, 2003, a provisional election was not made. The Applicant Representative indicated that in response to this restriction an amendment would be filed which incorporated the features of Group II into the independent claims of Group I. Namely, Group I would be amended to include the features of offering/selling the used (first) product to the second person.
